Continuation of 2. NOTE: In regards to Tani discloses operating on more than one package at the same time. Tani discloses a lapping process (i.e. grinding) on more than one unit portion 31 (see col. 3 lines 9-23; Fig. 3D). The amendment to claim 10 adding the language of "encapsulating the die and the wire bond pad in an encapsulant to form a first encapsulated package ", providing a second encapsulated package that is encapsulated separately from the first encapsulated package ", and " reshaping the first encapsulated package and the second encapsulated package at the same time by using a lapping process " raises new issues that would require further consideration and/or search. Furthermore, the reply filed 10/7/04 is improper because it is not limited to appeal or to amendment as specified in 37 CFR 1.113: 37 CFR § 1.113 Final rejection or action.

(a) On the second or any subsequent examination or consideration by the examiner the rejection or other action may be made final, whereupon applicants, or for ex parte reexaminations filed under § 1.510, patent owner's reply is limited to appeal in the case of rejection of any claim (§ 1.191), or to amendment as specified in §1.114 or § 1.116. Petition may be taken to the Commissioner in the case of objections or requirements not involved in the rejection of any claim (§ 1.181). Reply to a final rejection or action must comply with § 1.11 or paragraph (c) of this section. For final actions in an inter partes reexamination filed under § 1.913, see § 1.953. See also MPEP 714.13:

Except where an amendment merely cancels claims, adopts examiner suggestions, removes issues for appeal, or in some other way requires only a cursory review by the examiner, compliance with the requirement of a showing under 37 CFR 1.116(c) is expected in all amendments after final rejection. Failure to properly reply under 37 CFR 1.113 to the final rejection results in abandonment. A reply unde 37 CFR 1.113 is limited to:

(A) an amendment complying with 37 CFR 1.116; (B) a Notice of Appeal (and appeal fee); or (C) a request for continued examination (RCE) filed under 37 CFR 1.114 with a submission (i.e., an amendment that meets the reply requirement of 3~ CFR 1.111) and the fee se forth in 37 CFR 1.17(e). RCE practice under 37 CFR 1.114 does not apply to utility or plant patent applications filed before June 8, 1995 and design applications.

Further examination of the application may be obtained by filing a continued prosecution application (CPA) under 37 CFR 1.53(d), if appropriate. See MPEP § 201.06(d).

Further see MPEP 1205, last paragraph:

Failure to remove all grounds of rejection and otherwise place an application in condition for allowance or to file an appeal after final rejection will result in the application becoming abandoned, even if one or more claims have been allowed, except where claims suggested for interference have been copied.
